OBJECTIVES

Connecting to Nature

To foster a connection and appreciation for the natural world through immersive experiences.

Sustainable Living

To equip students with the knowledge and skills to practice sustainable living and green innovation.

Nurturing Creativity

To cultivate creativity, problem-solving abilities, and teamwork through hands-on projects and activities.

Future-ready Leaders

To inspire future generations of environmentally conscious individuals who can contribute to a greener future.

BACKGROUND

Our planet faces pressing environmental challenges like climate change, biodiversity loss, and pollution.

The future depends on young innovators who can develop sustainable solutions.

Forest Farmers offers a unique opportunity for children to discover the secrets of the natural world and learn practical skills to become green warriors.

ACTIVITIES

Farming Basics

Learn about organic farming principles, plant seeds, tend to vegetable gardens, and harvest fresh produce.

Permaculture in Action

Explore and design mini-permaculture gardens, and understand the interconnectedness of nature.

Soil Secrets Revealed

Conduct soil analysis experiments, understand healthy soil, and learn about different types of compost.

Weaving a Haven

Create natural bird feeders and nesting materials using recycled items, understand and observe different bird species

A Spy in the Garden

Embark on guided insect walks, learn about the vital role of various insect species in the ecosystem

Creative Expression

Capture nature's magic through art workshops, nature journaling, and storytelling sessions.

CAMP SCOPE OF SUPPLY

Trained and enthusiastic instructors with backgrounds in environmental education and relevant fields.

Accommodation in nature-friendly dorms or tents

Safe and secure environment with first-aid facilities and qualified supervision.

Healthy and delicious meals prepared with fresh, local ingredients.

Just pack enough clothes for five days from your end!

Materials provided for hands-on activities:

- Sustainable Nature kit
- Nature journaling kit
- Gardening starter kit for at-home practice.
